INFINITY HUB - MANPRO- HRMS AND TAGURO MOBILE

Internship/ Mobile App Application

A Human Resource Management System (HRMS) where I conducted QA testing, identified bugs, and analyzed system workflows. A mobile application where I designed user interfaces and interactive prototypes in Figma, focusing on usability and user experience.

- Conducted Quality Assurance (QA) testing for the ManPro HRMS web application by identifying bugs and verifying system functionality.
- Studied the workflow and features of ManPro HRMS to ensure accurate testing and reporting.
- Designed and implemented mobile app interfaces using Figma and Expo (React Native) for the Taguro Mobile application.
